

HELLO!
Nice to meet you

Zerosnap

SAFE | FAST | SECURE

A Product From
intelliLABS
technosolutions pvt. ltd.

First impressions count!

Provide your guests with the fastest and most convenient check-in, allowing them to enjoy their stay immediately without delay. An interactive guest-experience to build your brand.

Zerosnap is a plug-in software for your existing PMS that enables faster and secure check in to the hotel without a second person's assistance. We aim to accelerate and simplify various stages of checking in.

This application is directly related to customer satisfaction and it enhances front office efficiency.

Zerosnap sends details to FRRO (Form C) and PMS in a matter of a click and automatically generates Digital Registration Cards

Reception Desk

SIMPLIFY CHECK-IN WITH ZEROSNAP

**Benefits For
you**

-> Fast

Reduces check-in time, increases efficiency and customer satisfaction. Captures all relevant data in a few seconds.

-> Paperless

Go Green !!! Saves money through scanned images, digital registration cards and e-invoices.

- Scan ID Card
- Digital Signing
- Data Accuracy
- Send to PMS/Form (c)

Workflow of Zerosnap

Functionalities / Features

Zerosnap is a reception assistant software that helps Check-in to the hotel without a second person's assistance.

"Zerosnap, The Receptionist"

The data fetched from the scanner will be verified and cross-checked with the directory available on Internet.

"Zerosnap, The Authorizer"

Push Guest details directly to the PMS and to the local authorities (FRRO – form©).

"Zerosnap, The Law Abider"

1. Form C filling (FRRO)
2. Web check in
3. Smart Address Validation Engine(SAVE)
4. Digital Signing
5. Efficient Form Fill (EFF)
6. Additional Benefits

Form-c Filling (FRRO)

Any hotelier who provide accommodation to foreigners must submit the details of the residing foreigner in Form C to the Registration authorities within 24 hours of the arrival of the foreigner at their premises.

Zerosnap pushes guest details directly to local authorities (FRRO-Form C) in a matter of a click, avoiding duplicate manual entries.

<https://indianfrro.gov.in/frro/FormC>

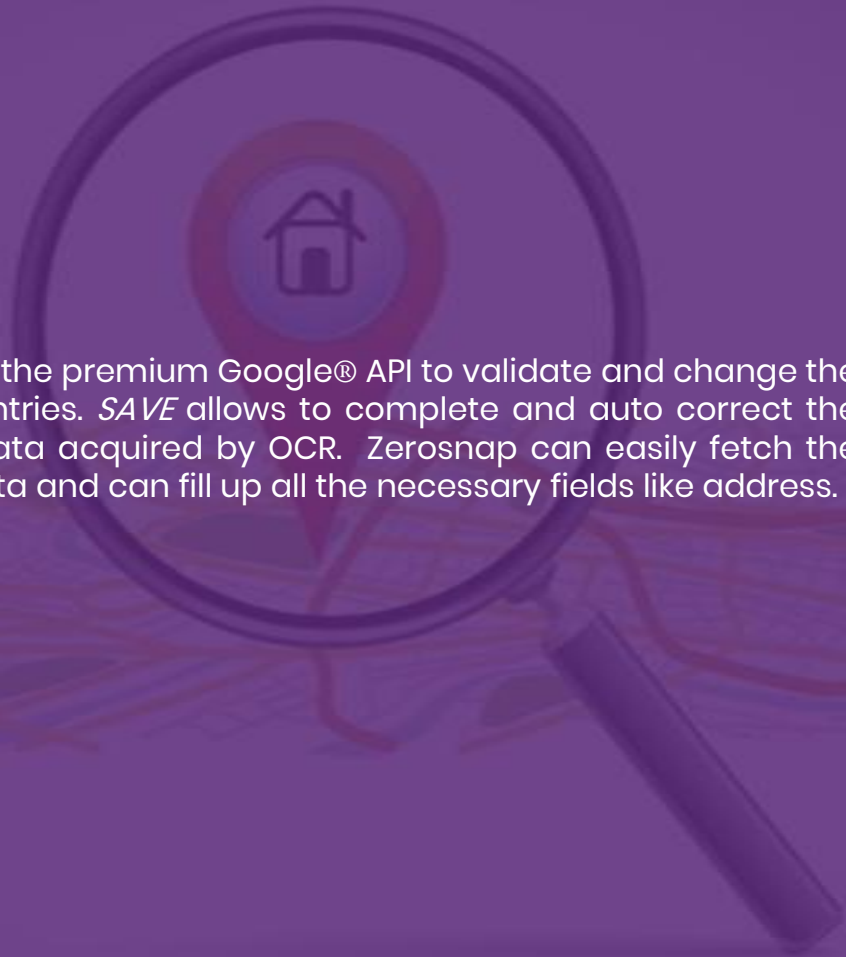

Web Check-in

Easier and faster web check-in

Scanned documents can be imported to Zerosnap from the database (existing guests) or email (new guests)

All necessary formalities of check-in except guest signature can be done before arrival.

SAVE uses the premium Google® API to validate and change the address entries. *SAVE* allows to complete and auto correct the address data acquired by OCR. Zerosnap can easily fetch the precise data and can fill up all the necessary fields like address.

Smart Address Validation Engine(SAVE)

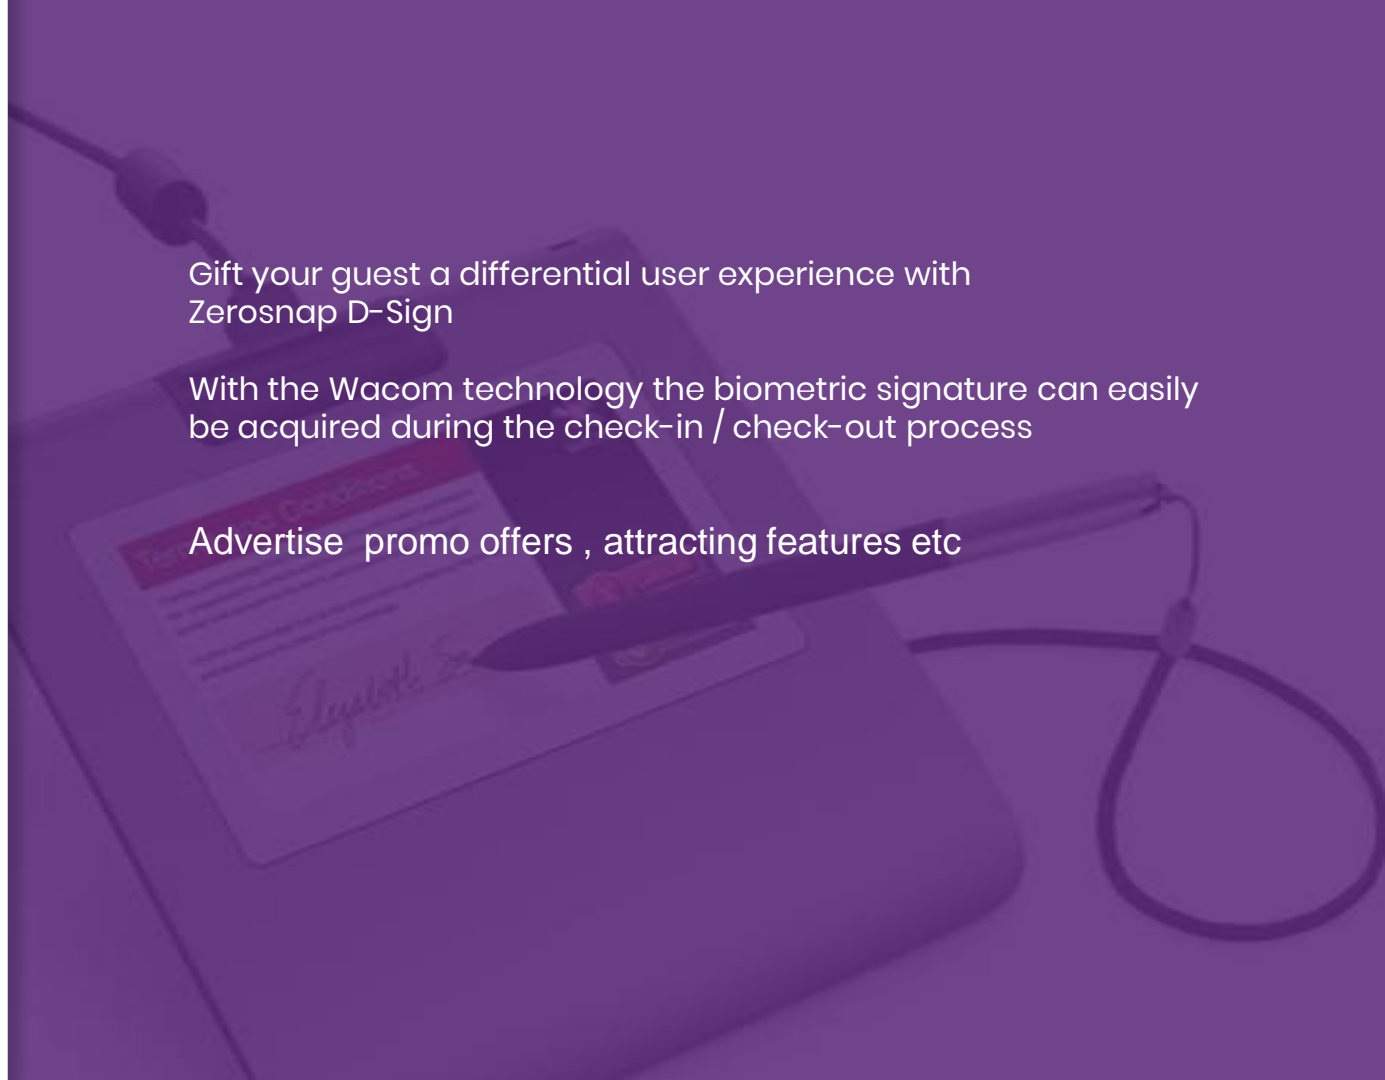

Gift your guest a differential user experience with Zerosnap D-Sign

With the Wacom technology the biometric signature can easily be acquired during the check-in / check-out process

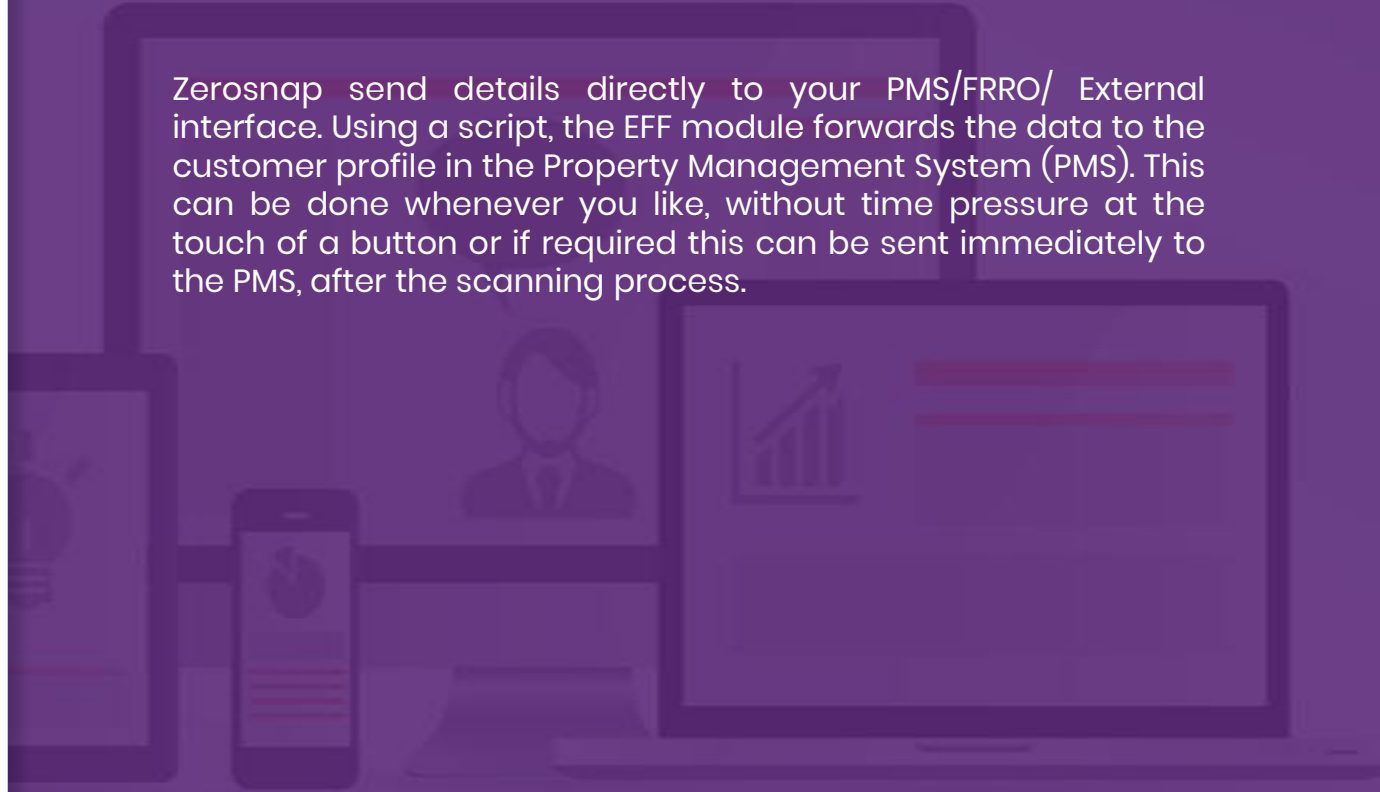

Advertise promo offers , attracting features etc

**Wacom
Technology**

Efficient Filling Form (EFF)

Zerosnap send details directly to your PMS/FRRO/ External interface. Using a script, the EFF module forwards the data to the customer profile in the Property Management System (PMS). This can be done whenever you like, without time pressure at the touch of a button or if required this can be sent immediately to the PMS, after the scanning process.

Additional Benefits

- > Advanced registration card generation
- > Document type detection & expiry alert
- > Multi property management
- > Group check-in feature
- > Communicate to group through email, SMS and whatsapp
- > Import/export data from/to PMS, Websites etc
- > History tracking
- > Birthday reminders if guest check-in on his birth day
- > Active dashboard –bird’s eye view of all relevant statistics
- > Encrypted SQL to ensure high end security
- > Back up and restore
